Safeguarding of Children Advanced - Aftermath part 2

The strategy meeting highlighted increased concerns from the other agencies including health, housing and the police. It agreed to take the matter to case conference to determine if there is a need for child protection plan / child protection register.

You are required to complete a chronological report of your involvement with the family and child. This document needs to be submitted prior to the conference. The parents will see all documents.

What information do you think you need to supply?

As the information might difficult for the family to hear / read; how could you ensure your report is received with minimal hostility?

The result of the conference is that the child will remain with the family. How will you continue to maintain the relationship you have with the family to ensure the safety of the child?
