## Management Responsibilities for Safeguarding Adults

### Assessment of Underpinning Knowledge

It is the responsibility of organisations to ensure that it has a workforce development plan that includes appropriate competencies for their management staff in relation to 'Safeguarding Adults' work. The 'Safeguarding Adults' partnership plays a key role in enabling organisations to plan and commission such training to support these competencies. These questions have been cross referenced with the National Framework of Standards for good practice and outcomes in adult protection work (ADSS). The questionnaire will be a useful tool for inspection from Care Quality Commission, the local authority Contracts Department, Supporting People and Ofsted and will provide evidence that the organisation is working within the national framework of standards for good practice and outcomes in 'Safeguarding Adults' work.

<b>To be checked by Line Manager or person responsible for assessing competency of staff</b>
Name:
Role:
Place of Work:
Date of Training: (if attended Managers Responsibilities Course)

### 14 Questions
